

9<sup>th</sup> December 2015, Seville

Actividad del Programa de  
Doctorado Matemáticas de la US

# II Pre-Doc Course in Operations Research 2015

## Confirmed Speakers:

Alberto Muñoz García (Universidad Carlos III de Madrid)

Víctor Blanco Izquierdo (Universidad de Granada)

The II Pre-doc Course in Operations Research is designed for a wide range of PhD students and researchers within the field of Statistics and Operations Research. The aim of this course is training PhD students as well as motivating both students and researchers to develop new research areas. Furthermore, this activity aims to encourage final-year Mathematics students to do research. The importance of mathematical research as a scientific discipline and a technological key to future developments in applied areas has motivated the organization of the II Pre-Doc Course in Operations Research 2015. This course, besides covering theoretic, computational and practical aspects of mathematical optimization, presents an excellent opportunity for start equipping students to success in PhD programs.

The course will take place on the 9<sup>th</sup> of December, 2015 at the seminar of the Institute of Mathematics of the University of Seville, IMUS, located on the first floor of the Celestino Mutis Building, at the University of Seville.

## Organizing Committee

*Vanesa Guerrero Lozano*

*M<sup>a</sup> Asunción Jiménez Cordero*

*Marina Leal Palazón*

*Alba Victoria Olivares Nadal*

*Diego Ponce López*

*M<sup>a</sup> Remedios Sillero Denamiel*
