A certificate of participation in Spanish and English will be awarded to those who attend at least 75% of the Symposium

R&D&I PROJECT "INEQUALITIES IN THE SPATIAL DISTRIBUTION OF GREENERY IN ANDALUSIAN CITIES" (GREENANDCITIES, PROYEXCEL\_00566), FUNDED BY JUNTA DE ANDALUCÍA.

# I INTERNATIONAL SYMPOSIUM ON ENVIRONMENTAL JUSTICE IN EUROPEAN CITIES

11 - 12 December 2025

Sala Ibiza. Eurostars Al-Andalus Palace. Dirección: Av. de la Palmera, s/n, 41012 Seville (Spain)

## WHAT IS IT ABOUT?

The **I International Symposium on Environmental Justice in European Cities** will examine how social inequalities present in cities are related to the availability and access to nature, as well as exposure to unfavorable environmental conditions and their impact on the quality of life of the most vulnerable urban populations. The event will explore how these inequalities particularly affect groups such as immigrants, older adults, low-income individuals, or people with disabilities, fostering debate on building more equitable and inclusive cities. Over two days, research will be presented on the distribution of urban green infrastructures—particularly green and blue spaces—in various European cities, with contributions from international speakers. Additionally, within the framework of the R&D&I project GreenAndCITIES, social inequalities in access to urban nature in neighborhoods of Andalusian cities will be discussed, with special focus on the case of Seville, involving both scientists and local representatives.

## AUDIENCE

Targeted at researchers, students, political representatives, and members of social organizations, as well as anyone interested in social, urban planning, environmental, and urban health issues.

### THURSDAY, 11 DECEMBER 2025, 16:00 - 19:00 H:

**16:00-16:15** Opening Ceremony. Introductory Lecture: Social Inequalities in Access to Urban Nature. **Dr. Marco Garrido-Cumbrera**. Health & Territory Research, Universidad de Sevilla

**16:15-16:40** Analysing Urban Inequalities in Environment and Health at the Neighbourhood Scale in Dublin **Dr. Kevin Credit**. Maynooth University, Ireland

**16:40-17:10** Coffee Break

**17:10-17:35** Community-based research on lived water, environment and health insecurity experiences in marginalised population groups in Europe. **Dr. Carmen Anthonj**. University of Twente, Netherlands

**17:35-18:00** Spatial inequalities in the greenspace and health research: A multi-context overview. **Dr. SM Labib**. Utrecht University, Netherlands

**18:00-18:25** Green but not Equal: Barriers Women Face in Accessing and Enjoying Urban Nature. **Dr. Anna Bornioli**. IS Global, Barcelona, España

**18:25-19:00** Discussion

### FRIDAY, 12 DECEMBER 2025, 10:30 - 14:30 H:
